PROPOSAL · U.S. MARKET · CONFIDENTIAL

Proof that AI engines cite SoftwareSuggest for Attendance Management Software

Prepared for: **U.S. vendors of Attendance Management Software** · Prepared by: **SoftwareSuggest AEO/GEO Team**

SUMMARY

SoftwareSuggest's citation tracking shows that AI engines cite our **Attendance Management Software** pages **2 times** across all markets, on **1** AI engine (Perplexity). **1** Attendance Management Software product is already cited by name. In the U.S., our Attendance Management Software pages appear in Google results for **1** search (**1** on page one), about **0** searches a month. This is where U.S. buyers compare options, and where your product can be cited too. Below are 1 U.S. example we can show you.

2	1	0	1
AI engine citations (all markets)	U.S. Google searches we show up for	U.S. searches a month on those	Products cited by name

CITATION HIGHLIGHTS

1 U.S. example we can show you

Google ranking: a U.S. search where SoftwareSuggest ranks on page one.

WHAT IS CITED	WHERE	U.S. SEARCHES A MONTH
Google ranking "open source biometric attendance software"	Google · U.S. · position 8	–

Recorded by Ahrefs as of November 2, 2026. AI answers change with the person, the country and the day, so a citation may not appear on every attempt.

HOW WE WORK

How we put your product into these answers

01
Diagnose
A baseline of how your product shows up across AI platforms, and where rivals win citations.

02
Create
Source-worthy content built around the questions AI retrieves most here.

03
Reinforce
Entity clarity and trust signals AI weighs before it recommends a brand.

04
Track
Monthly plain-language reports on where your product is named or left out.

INVESTMENT
