PROPOSAL · U.S. MARKET · CONFIDENTIAL

Proof that AI engines cite SoftwareSuggest for Billing Software

Prepared for: **U.S. vendors of Billing Software** · Prepared by: **SoftwareSuggest AEO/GEO Team**

SUMMARY

SoftwareSuggest's citation tracking shows that AI engines cite our **Billing Software** pages **6 times** across all markets, on **5** AI engines (Google AI Overviews, Google AI Mode, Gemini, Perplexity, Copilot). **6** Billing Software products are already cited by name. In the U.S., our Billing Software pages appear in Google results for **13** searches (**13** on page one), about **950** searches a month, and Google's AI Overview cites us on **3** of them. This is where U.S. buyers compare options, and where your product can be cited too. Below are 6 U.S. examples we can show you.

CITATION HIGHLIGHTS

6 U.S. examples we can show you

AI answer: a U.S. question where an AI engine cites SoftwareSuggest's Billing Software page. **Google AI Overview**: a U.S. search where Google's AI Overview cites SoftwareSuggest. **Google ranking**: a U.S. search where SoftwareSuggest ranks on page one.

WHAT IS CITED	WHERE	U.S. SEARCHES A MONTH
AI answer "What is an inventory invoice?"	Perplexity · U.S.	–
Google AI Overview "transportation billing software"	Google AI Overview · U.S. · position 1	200
Google AI Overview "transport billing software"	Google AI Overview · U.S. · position 1	150
Google AI Overview "service billing software"	Google AI Overview · U.S. · position 1	50
Google ranking "hotel billing software"	Google · U.S. · position 5	200
Google ranking "automobile billing software"	Google · U.S. · position 7 · AI Overview shown	150

Recorded by Ahrefs as of November 2, 2026. AI answers change with the person, the country and the day, so a citation may not appear on every attempt.

HOW WE WORK

How we put your product into these answers

01
Diagnose
A baseline of how your product shows up across AI platforms, and where rivals win citations.

02
Create
Source-worthy content built around the questions AI retrieves most here.

03
Reinforce
Entity clarity and trust signals AI weighs before it recommends a brand.

04
Track
Monthly plain-language reports on where your product is named or left out.

INVESTMENT
