PROPOSAL · U.S. MARKET · CONFIDENTIAL

# Proof that AI engines cite SoftwareSuggest for Tournament Software

Prepared for: **U.S. vendors of Tournament Software** · Prepared by: **SoftwareSuggest AEO/GEO Team**

SUMMARY

SoftwareSuggest's citation tracking shows that AI engines cite our **Tournament Software** pages **1 time** across all markets, on **1** AI engine (ChatGPT). This is where U.S. buyers compare options, and where your product can be cited too. U.S.-specific examples are not yet on record for this category.

CITATION HIGHLIGHTS

## U.S. examples

No U.S. examples are on record for this category yet.

Recorded by Ahrefs as of November 2, 2026. AI answers change with the person, the country and the day, so a citation may not appear on every attempt.

HOW WE WORK

## How we put your product into these answers

01
### Diagnose
A baseline of how your product shows up across AI platforms, and where rivals win citations.

02
### Create
Source-worthy content built around the questions AI retrieves most here.

03
### Reinforce
Entity clarity and trust signals AI weighs before it recommends a brand.

04
### Track
Monthly plain-language reports on where your product is named or left out.

INVESTMENT

## Three ways to engage

Choose the plan that fits your stage. We confirm the right one with you on a call.
