

PROPOSAL · CONFIDENTIAL

AI Search Visibility Assessment & Engagement Proposal for Callmultiplier

Prepared for: **Callmultiplier** · Prepared by: **SoftwareSuggest AEO/GEO Team**

EXECUTIVE SUMMARY

Your product is already part of how AI answers buyer questions

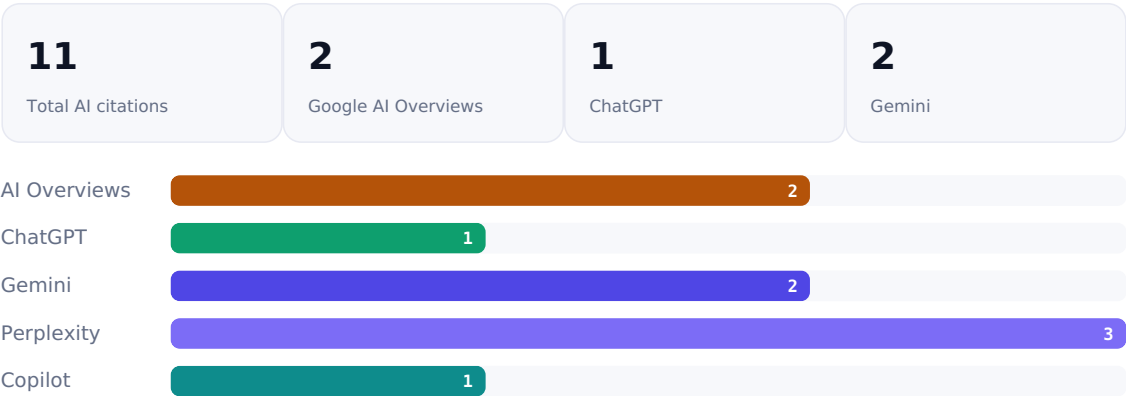

Independent tracking of softwaresuggest.com's listing pages shows that **Callmultiplier** (softwaresuggest.com/callmultiplier) has been cited **11 times** across AI Overviews, ChatGPT, Gemini, Perplexity and Copilot to date. This places Callmultiplier among the products already surfacing inside AI-generated answers — the layer an increasing share of B2B buyers now consult before they ever reach a traditional search results page or vendor comparison site.

This proposal outlines the current state of that visibility, the mechanics behind it, and a recommended engagement to protect and expand Callmultiplier's presence as AI search continues to grow as a buyer-research channel.

1. CURRENT AI VISIBILITY ASSESSMENT

Where Callmultiplier stands today

The figures below reflect citation activity captured for softwaresuggest.com/callmultiplier across major AI answer engines.

Source: Ahrefs Brand Radar citation tracking for softwaresuggest.com. Figures reflect point-in-time data collected September 23, 2026 and are subject to change as AI platforms refresh their indexes.

The kind of buyer questions this visibility touches

The examples below illustrate common buyer-research query patterns for this category. They are representative constructions, not verified individual prompts, and are included to contextualize how citation activity translates into real buyer touchpoints.

“Callmultiplier pricing and reviews”

A buyer asking Google AI Overview this today would likely see a structured, cited answer — and with **Callmultiplier** already appearing 11 times across tracked AI platforms, staying visible in exactly this kind of query is what the plan below protects and grows.

“top software like Callmultiplier in 2026”

A buyer asking ChatGPT this today would likely see a structured, cited answer — and with **Callmultiplier** already appearing 11 times across tracked AI platforms, staying visible in exactly this kind of query is what the plan below protects and grows.

“is Callmultiplier worth it”

A buyer asking Gemini this today would likely see a structured, cited answer — and with **Callmultiplier** already appearing 11 times across tracked AI platforms, staying visible in exactly this kind of query is what the plan below protects and grows.

How we protect and grow this visibility

Our approach is structured around four phases, applied specifically to Callmultiplier's category and buyer-intent data:

01

Diagnose

Establish a full baseline of how Callmultiplier shows up — or doesn't — across today's AI platforms, and identify where competitors are winning citations instead.

02

Create

Produce structured, source-worthy content aligned to the specific queries AI systems retrieve most for this category.

03

Reinforce

Strengthen the entity clarity and trust signals AI models weigh when deciding whether a brand is safe to recommend.

04

Track

Report monthly, in plain language, on exactly where Callmultiplier is named, paraphrased, or omitted across tracked platforms.

4. RECOMMENDED ENGAGEMENT & INVESTMENT

Recommended plan for Callmultiplier

You're already one of the most-cited products in your category. This tier is built to defend and extend that lead before a competitor closes the gap.

DOMINATE

Starting from \$2,000 /month

- 5 AI content assets / month
- 2 AI-optimized video reviews
- Advanced Prompt Strategy
- SaaS Entity Optimization
- Monthly Strategy Workshops
- Complete AI Visibility Strategist
- Priority Support Access

5. TERMS & NEXT STEPS

How to proceed

- This proposal is valid for 30 days from the date above (September 23, 2026 – October 23, 2026). Citation figures and recommended tier may be revised on renewal, reflecting updated tracking data.
- Engagement begins with a scoping call to confirm objectives, category keywords, and reporting cadence.
- Billing and specific deliverable schedules will be confirmed in a separate engagement agreement prior to commencement.
